CONSTRUCTION

In the manufacture of this wonderful cart only the very best quality of every shing is used. Wheels, Kenney patent, A 1 grade; axles steel, done collar, size i inch; shafts, best second growth bloko v, thoroughly seasoned, XXXX quality The scat and body frame is constructed of Tsteel side pieces; bottom made of conserved wood, three thicknesses thoroughly rivited to side pieces. The side pieces are connected in front under sia fits with a joint, and are supported by means of two spiral springs, as shown in out. These springs are made from best crucible steel, and twelve feet colled in each, oil tempered, laminated wood sest botton; forged iron seat rail; suished in the white; incely striped, and full leather trimmed. This cart guaranteed in all parts.

It is the lightest draught cart in the market.

8. A perfect beauty in appearance.

A TEST. - Place 2 or 4 senatings 8 or 10 feet apart on a road, and then drive over them as fast as your horse can trot or run. We will guarantee that the rider shall not be moved from the scat by such a severe test. Try any other cart

or run. We will guarantee that the runt shall not be referred to the expectation of the runt. We guarantee the springs for 5 years. Should they break, we replace them free of charge—also guarantee shafts 12 months. Ask any other manufacturer to give you such a warrantee and see what he will say.

It you are told that other caust have no horse motion, it is only when the horse is standing still, for with such carts you surely get a very undersant jorking motion, that is entirely avoided with our Spiral Spring cart.

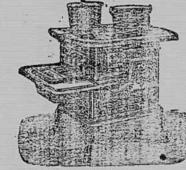

We have this cart with double seat only. Always buy a good article.

- CAREFULLY NOTE THESE POINTS.

1. This easy riding cart has no seat bars to climb over in getting in or out of the seat. This makes it desirable for all classes of people
2. It is the only cart that can be adjusted to suit the road and the weight of the rider. Five seconds will produce this

The bottom is solid, in preference to slats so commonly used, which protects driver from dust and mud. Where other carts have from 2 to 3 foot springs, the Spiral has 24 foot springs, giving more elasticity than any other

It balances perfectly.
It is free from horse motion.
